

Bug in Your Ear

Volume: 2020

Edition: #2

This Year's Award Recipient

This year, Ladybug Giving funded a collaborative health and wellness project. The awarded was granted to Windhorse Zen Community in Alexander, NC. The goal of this health and wellness project is to create an organic community garden, and share the grown food with the Steadfast House, a local homeless shelter. This is another exciting project to be a part of, and we cannot wait to learn more about this wonderful endeavor.

COVID-19

Due to COVID-19, Ladybug Giving Inc., found it necessary to expand both the submission and reporting deadlines. We wanted to alleviate any stress to an already stress period.

Last Year's Award Recipient

Pastor Ricky Alexander's Kicking for Christ Ministry completed its grant project amid the COVID-19 pandemic. The ministry's goal is to help at-risk kids to build self-esteem, discipline, and character through karate, mentoring, and biblical principles. What a wonderful project for Ladybug Giving to be a part of. Thank you, Pastor Ricky for inviting us into your ministry.

Our Giving

Each grant cycle awards us with new ways to expand or enhance our giving. With so many ministries and classrooms in need of financial support, you only need to get your creative juices flowing and submit a grant application. Ladybug Giving, would love to fund your ministry or classroom needs.

Who Said it and Where?

"You have been concerned about this plant, though you did not tend it or make it grow..."
